

IQ 3.0 Mini

The IQ 3.0 Mini gateway simplifies network infrastructure while keeping everything secure and connected. The compact size and power of IQ Mini make it a versatile solution for a wide range of uses. Provide a direct and secured connectivity to Salto cloud ecosystem, adding online features to the smart access platform and BLUEnet connectivity and SVN capabilities interoperability with Salto smart locking devices. The wall-plug design setup takes just minutes. The IQ 3.0 Mini powerful technology easily creates BLUEnet network to communicate with the access control cloud for system management and maintenance that establishes a secure connection over the local network.

Features

- New class of advanced wireless connected BLUEnet peripherals, designed to meet the demands of modern cloud-based access control applications-
- Simplify network infrastructure with the latest advancements in BLUEnet wireless technology capabilities and connectivity.-
- More SVN credentials update points capacity with SVN-Flex technology.-
- Plug-and-play design allows for easy installation, with no additional wiring needed, to take advantage of the hybrid wired/wireless architecture to cut down the installation costs.-
- With WIFI connectivity, the IQ 3.0 Mini communicates with the access control cloud for system management and maintenance that establishes a secure connection over the local network.-
- Built-in cybersecurity features, the IQ 3.0 Mini meets the highest industry rating for security with standard encryption communications.-
- Capability to connect and control up to 4 BLUEnet devices per IQ 3.0 Mini.

Technical characteristics

- Housing Dimensions: 53Ø x 32mm-
- Weight: 313g-
- Environmental conditions indoor: 0°C/+60°C noncondensing (humidity 0%-95%)-
- Connect with the versatile USB port-
- Input Voltage: 5V-
- Max. Input Power: 5W-
